Measurement is the
quantitative way of
comparing of one thing
with another. The
International System of
Units, also known as the
SI, is by far the most

Access Free A Measure Of All

widely used system of measurement in the world. It is a coherent system of seven base units (kilogram, metre, second, ampere, kelvin, mole, candela) which allow science, industry and trade to measure all physical objects and phenomena in the same way, using the same units and get the same number.

~~Protogoras That Man Is
The Measure All Things
And
Philosophy Essay~~

Protogoras of Abdera
(l.c. 485-415 BCE) is
most famous for his
claim that "Of all things
the measure is Man, of
the things that are, that
they are, and of the
things that are not, that
they are not" (DK 80B1)
usually rendered simply

Access Free A Measure Of All

as "Man is the Measure of All Things". Along these same lines, he also maintained that, if there were gods - as the Greeks, of course, believed - there was no way of knowing what they were like or what they might want from humanity by way of service and worship.
