With the publication of Mardelle Shepley's *Design for Pediatric and Neonatal Critical Care*, this void has been filled in remarkable fashion. A first attempt to address such a complex issue tends to be rudimentary in areas where the author(s) may not have expertise. But *Design for Pediatric and Neonatal Critical Care* excels in every area. Form and function, design as well as operational issues which might impact design are considered by experts from every relevant discipline, with an ...

COVID-19 cannot be considered as an adult-only disease. Pediatric and neonatal severe forms are rare but may happen. Due to their rarity and complex physiopathology, the pediatric cases of Covid-19 are often challenging and difficult to cure. Yet, there is a lack of information and experience sharing around these specific pediatric cases.
