There are many processes that are needed to be scheduled for the proper implementation of construction projects. There are also many updates that the stakeholders of the construction project should be aware of. Each construction project has different areas and features to focus on which needs to be reported to assure that all these areas are aligned with each other to help in achieving the expected results of the ...

Report Writing - University  
of Bradford

The most common type of project report, a project status report provides a general state of the project to its stakeholders. It quantifies work performed and completed in measurable terms. It compares this with an established baseline to see if the project is on track or; if adjustments have to be made if the project is behind its schedule.
